

**Agricultural Liaison Advisory Board  
August 3, 2009**

**Grading and Stormwater Management Ordinances**

1. Project Description
  - *Refer to Notice of Preparation description*
2. Process
  - *Opportunities to Comment*
3. How the Changes Will Affect Agricultural Activities
  - *Agricultural Exemption Table*
  - *Proposed Modifications*
    - Grading threshold – 50 cubic yards
    - Limitation on grading – 30 percent slopes (does not apply to ag)
    - Exempt grading – includes ongoing crop production, repair/maintenance
    - Agricultural exempt grading
    - Alternative review
    - Unpermitted grading
  - *Frequently Asked Questions*
  - *Background / Overview – refer to Memo to ALAB*
4. What We're Looking for from ALAB
  - *Comments:*
    - Adding agricultural exemptions and alternative review to the Coastal Zone.
    - Procedures required for agricultural exemption / alternative review.
    - Standards required to qualify for exemption / alternative review.
    - Practices that should fall under either agricultural exemption or alternative review.
    - Any other comments or insights.
